

# **CAR CLASSIFICATION**

2019

## KEYS & FOOTNOTES

\* - will be classed on a case by case basis at the discretion of tech

^ - not listed elsewhere

**NT** - Normally aspirated

**T** - OEM turbo or supercharger

## NOTE

Cars which run in a class requiring use of specific equipment must use that equipment.  
Examples are:

- 1) 2v V8 must use OEM carb
- 2) Up to 1700 VW in may not use any GTI equipment

\*Anyone with a swapped car should email tech before going to an event for correct classification. It will be at the discretion of tech based on chassis, engine and supporting mods where to place the car.

\*All Spec series cars, i.e. Spec Miata, Spec E30, Spec racer ford, Spec Z etc. will be recognized and run in their respective spec class. This class will only be for points and trophy if two or more cars compete in the class and will count as a championship if this occurs at least 5 times throughout the season. If there is only one car competing the driver may choose to run in the assigned ST category.
